

Entertainment Receiving System

Key Features

- Delivers audio and video entertainment from the Transmission System to Headphone panels and Video monitors
- Usually one unit per coach architecture
- Several different types
- Modular design with plug-in units
- Easy installation and maintenance

Technical Data

Type number	
Dimensions	19" 3U rack, 132.5 (h) x 482.6 (w) x 248.8 (d) mm
Weight	8 kg
Housing	Aluminium, IP 20
Temperature range	-20°C...+50°C (ambient)
Interfaces	Fibre optics RX (2) / TX (2), RS422/485 for video monitor (4), RS422 for head phone panels (4), (optionally RS485 (2) for information displays)
Power consumption	Max. 35 W, 24 VDC
Standards	EN50155, EN50121-3-2, NUP T2 category II

Optional Features:

Interfaces: Ethernet
